TATLER

A review by TATLER starts with the statement

" Brownrigg is one of the most exciting Antique shops outside London"

"In interior design and art dealing, they have an uncanny knack not only for picking out rare pieces but also for knowing exactly where they'll look best.

Enter their Brownrigg Antique showroom in Petworth, West Sussex — a veritable cornucopia Of classic antiques, unusual European, 18th century paintings, modern art and sculpture, as well as fabulous statuary for the garden, spilling across the three-storey interior. Whatever the intended setting, whether historic, traditional, or contemporary, that sought-after gem is sure to be hiding there somewhere. Just ask the experts"
